Location: Lucerne Museum of Transport

We spend an exciting day at the Lucerne Museum of Transport and can marvel at the numerous exhibitions on ships, trains and aeroplanes in small groups. With the various simulators, themed islands and original objects, we immerse ourselves in the moving history of transport on water, on land, in the air and in space. In the afternoon, we can look forward to a journey to the stars in the planetarium. Of course, there is plenty of time to play in the large playground arena with the traffic garden and the bicycle course.

Location: Milandia Bouldering & Kulturama

In the morning, we try our hand at bouldering at Milandia, where we climb up the colourful climbing walls and land safely back on the ground on thick mats. In addition to the climbing courses, there are other fun games of skill. After a spaghetti lunch, it's off to Kulturama in the afternoon, where we discover the anatomy and function of the human body through touch, hearing and smell on an adventure trail.

If you feel like it, you can do special experiments in the OpenLabs or marvel at the natural wonders of the 130-metre-long Wonder Bridge and walk through a cloud in the park. In the special exhibition about mirrors, we can look forward to surprising and funny mirror images.

There's always something new to discover at Zurich Zoo! We visit the Masoala Rainforest, the elephant park, the giraffes and rhinos in the Lewa Savannah and marvel at the striking baobab trees.
